Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 17, 18, 22-24 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Ryan.

Ryan discloses a tape which can be torn into a plurality of transparent cards having a first color band 22 and a second color band 46. The bands have a width generally similar to grout width because “grout width” conventionally varies widely.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 19-21 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ryan.

Regarding claim 19, the recitation that the card includes color identifying indicia does not patentably define over Ryan because it has been held that patentable novelty cannot be principally predicated on mere printed matter and arrangements thereof, but must reside basically in physical structure. *In re Montgomery*, 102 USPQ 248.

Art Unit: 3611

Regarding claims 20, 21 and 25, it would have been obvious to make the color bands have a width of about $1/32$ to $3/4$ inch (claim 20), to make the card have a length of about 1 to 14 inch and a width of about 1 to 14 inch (claim 21), and to make the card have a thickness between 0.001 to $1/4$ inch (claim 25), because it has been held that where the general conditions of a claim are disclosed in the prior art, discovering the optimum or workable ranges involves only routine skill in the art. *In re Aller*, 105 USPQ 233.

Allowable Subject Matter

5. Claims 1-16 are allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
